WHY ALUMINIUM?

Very Energy Efficient

Not only will less gas be used in the process of heating your radiators, our aluminium radiators also use a particularly low amount of water inside them. Less gas, less water and cheaper energy bills as a result. A fantastic reason for switching over to aluminium radiators!

Highly Conductible

Aluminium is great for heating up quickly, a lot faster than the cast iron or steel alternatives.

Eco Friendly

Can be made from recycled materials & then re-recycled again once it's time to replace. A great eco-friendly option.

Flexible & Durable

With industrial grade properties, they will last longer than alternative materials without degrading & the added flexibilities allow for great designs during manufacturing.

*valves not included, see p24

Super BTU...

The BTU on the aluminium Hampden is **2766**, with the equivalent Queenstown steel rad having a BTU of 2005.

Aluminium is great for heating up quickly, a lot faster than the cast iron or steel alternatives.

DUAL FUEL HEATING ELEMENTS

Convert our towel radiators to dual fuel, giving you warm towels even when your central heating is off.

- 150w, 300w, 600w
- 1 metre VDE Approved cable
- Available with or without T piece which allows normal radiator to be used as dual fuel with an angled valve
- Self regulating overheat protection
- Fully CE Approved and manufactured to EN 60335-1:2012 + A11:2014

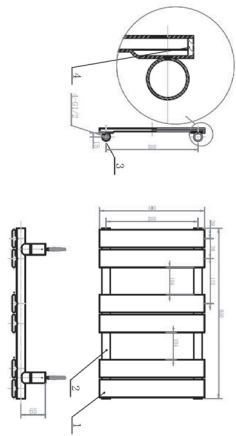

Which element do I need...?

- TIS2112 150w
- TIS2113 300w
- TIS2114 600w
- TIS2115 150w plus T piece
- TIS2116 300w plus T piece
- TIS2117 600w plus T piece

Guarantee Information

Many of our products are covered by a 1, 2, 3 or 5 year guarantee, if not stated, all others are covered by 12 month replacement guarantee. This does not cover accidental damage, improper use or negligence and products must have been installed by a qualified plumber, in domestic setting only. These guarantees do not cover general wear and tear or poor installations, and consequential losses will never be covered. For full guarantee information please visit our website. None of the above effects your statutory rights.

We have a vision to combine high quality, luxury design and affordability. With experience in bathrooms, importing and quality assurance you can be assured that our product quality and service is outstanding.

Our products are developed and manufactured to strict quality standards and where applicable have the relevant UK/EU Certification obtained. We aim to offer our customers outstanding value and quality to match!

Errors & Omissions

Information correct at time of print August 2022, but can be amended without prior notice. Due to Tailored Bathrooms constant R & D improvements we reserve the right to amend product design and withdraw at any time. All colours in this brochure are as accurate as possible where printing processes allow.

Measurements

All dimensions given by drawing or text are for guidance only, these are nominal and supplied, unless otherwise stated, in millimetres.

Care & Cleaning

For all our products it's as simple as warm soapy water and a microfibre cloth! Scan here for more information...

Line Drawings
